SEARCH FOR CRUISE MISSILE ACTIVITY ON OSTROV OGURCHINSKIY,

USSR

25X1

Collateral information suggests that a cruise missile site may be located on Ostrov Ogurchinskiy, USSR, in the Southeast Caspian Sea. In light of this information a search was made on [] photography to locate either cruise missile or instrumentation sites on this island.

A previous search (see referenced document) on photography [] did not indicate the presence of a cruise missile site.

25X1

25X1

The island has only been covered twice on [] photography since that time by []. A search of these missions revealed no additional activity. A TALL KING radar was identified at 39-07N 53-06E at one of two radar sites reported []. It was not possible to identify equipment at the other possible radar site located on the southern end of the island at 38-49N 53-04-30E.
